

For Early Childhood Centres

Funskills is a programme for Early Childhood Centres that builds the physical literacy of the children and teachers within the centres. Physical literacy is a holistic approach which aims to build a person's motivation, confidence, physical competence, knowledge and understanding of physical activity. Funskills is the program to do just that!

If you are keen for your centre to participate in Funskills or would like a workshop for your teaching staff please contact Pauline.butt@sportwaitakere.co.nz
